من الفكرة إلى التنفيذ

MULTI-SECTOR SUPPLY

Not limited to one sector.

Our operating model is designed around institutional procurement, whether the requirement comes from a government body, a corporate department, a healthcare facility or a project team.

Government Entities

Operational supplies, printing, identification, event items and special requirements sourced against formal specifications.

الجهات الحكومية

Corporations & Institutions

Office supplies, branded materials, IT accessories, printing, employee or event gifts and recurring procurement.

الشركات والمؤسسات

Healthcare Providers

Patient identification, labels, thermal printing, dissolvable bags, administrative supplies and light consumables.

القطاع الصحي

Projects & Events

Customized gifts, 3D pieces, printing, display items, paper hospitality and special-order products.

المشاريع والفعاليات

Procurement flexibility: we can work from a written specification, sample, artwork, model number, existing product reference or visual brief to develop a suitable option.

OUR PROCESS

Clear steps. Fewer procurement gaps.

We keep the workflow practical: define the requirement, identify suitable options, approve the right solution and coordinate production or delivery.

01

Understand

Requirement, specifications, quantities, model references and delivery expectations.

02

Source

Suitable local or international options evaluated for fit, quality, availability and value.

03

Customize

Branding, size, print, packaging, materials or design adapted when the brief requires it.

04

Deliver

Production, checks, coordination and delivery followed through with clear communication.

PRACTICAL SOURCING

The requirement comes first.

For recurring consumables, we aim for consistency. For custom work, we manage approvals and specifications. For model-specific items, compatibility is checked before sourcing.

المتطلب أولاً

سواء كان الطلب توريداً متكرراً أو منتجاً مخصصاً أو مادة مرتبطة بموديل جهاز، نبدأ بالمواصفة ثم نبني الحل المناسب عليها.

WHY AL-TAFARRUD

A supply partner that adapts to the requirement.

01

Flexible Sourcing

We source against specifications and project needs - not only a fixed catalogue.

02

Cross-Category Support

One relationship can cover office, identification, printing, gifts, hospitality and custom requests.

03

Model-Specific Supply

Consumables and accessories can be matched to equipment model and compatibility requirements.

04

Customization

Branding, dimensions, materials, packaging and design can be adapted where feasible.

05

Project Mindset

Special requests are handled through requirements, samples, approvals and milestones.

06

Saudi Market Focus

Our service model is built around institutional procurement expectations in Saudi Arabia.

07

Responsive Communication

Clear follow-up from enquiry through sourcing, production and delivery.

08

Local & International Options

Suitable supply routes are evaluated for availability, quality, fit and commercial value.

Supply with purpose. Execute with confidence.

Our goal is simple: give procurement teams a practical route from requirement to a dependable supply solution.

توريد بمرونة. تنفيذ بثقة.

LET'S BUILD THE RIGHT SUPPLY SOLUTION

Ready for the next requirement?

We welcome recurring procurement, special projects, customized products and operational requirements across government, corporate and healthcare environments.

لنصنع معاً حل التوريد المناسب.
